REVIEW OF PALAEOBOTANY AND PALYNOLOGY

Contents Volume 90, 1996

Special Issue: Palaeozoic Phytogeography (edited by C. Wnuk and H.W. Pfefferkorn)

Foreword: the value of paleophytogeography
C. Wnuk and H.W. Pfefferkorn 1
The development of floristic provinciality during the Middle and Late Paleozoic
C. Wnuk 5
Late Paleozoic phytogeographic provinces in China and its adjacent regions
Li Xingxue and Wu Xiuyuan 41
The Xu–Huai–Yu Subprovince of the Cathaysian Floral Province
M. Mei, M. Du, Q.C. Huang and D.L. Dilcher 63
The biogeography of the late Paleozoic floras of India
D.D. Pant 79
Paleoecological parallelism between the Angaran and Euramerican phytogeographic provinces
M.V. Oshurkova 99
Late Pennsylvanian climate changes and palynomorph extinctions
R.M. Kosanke and C.B. Cecil 113
A review of the problems in the stratigraphical, palaeoecological and palaeobiogeographical interpretation of Lower Carboniferous (Dinantian) floras from Western Europe
A.C. Scott and J. Galtier 141

Special Issue: Paleobiology of Fossil Plants: New Insights and Perspectives (edited by N.R. Cuneo, T.N. Taylor and E.L. Taylor)

Preface 155
New insights into early land ecosystems: a glimpse of a Lilliputian world
D. Edwards 159
New information on gametophytes and sporophytes of *Aglaophyton major* and inferences about possible environmental adaptations
W. Remy†, H. Hass 175
Biomechanics in fossil plant biology
V. Mosbrugger, A. Roth 195
Pteridophytic evolution: an often underappreciated phytological success story
G. W. Rothwell 209
Plant paleoecology and evolutionary inference: two examples from the Paleozoic
W. A. DiMichele, R. M. Bateman 223
The importance of fungi in shaping the paleoecosystem
T.N. Taylor, J.M. Osborn 249
Post-Variscan late Palaeozoic Northern Hemisphere gymnosperms: the onset to the Mesozoic
H. Kerp 263
Aspects of Gondwana paleobotany: gymnosperms of the Paleozoic–Mesozoic transition
S. Archangelsky 287
Enigmatic gymnosperms? Structurally preserved Permian and Triassic seed ferns from Antarctica
E.L. Taylor 303
Cretaceous floras containing angiosperm flowers and fruits from eastern North America
P.R. Crane, P.S. Herendeen 319

Timing in the evolution of derived floral characters: Upper Cretaceous (Turonian) taxa with tricolpate and tricolpate-derived pollen
W.L. Crepet 339
Paleobotany in cladistics and cladistics in paleobotany: enlightenment and uncertainty
K.C. Nixon 361
